THEME OF THE SEMINAR

“The Journey from Segregation to Inclusion: A Step towards Democratizing the System of Education”

Inclusive education endeavors to bring all students together in a classroom irrespective of their strengths or weaknesses in any area, and seeks to maximize the potential of all students. It addresses concerns of diverse learners – those with disabilities, different languages and cultures, different homes and family lives, different interests and ways of learning. Inclusion of science and technology to promote knowledge and skill among such pupils will harness the benefits to society at later stage. More over operation of ICT for inclusive education can be adopted for improving quality. The seminar will address various issues related to inclusive education, science education, learners with special need, inclusion in operation – so on & so forth.

SUB THEMES:

1. The Status of Inclusive Education in India and Abroad
2. Role of Different Agencies Working Towards Inclusion
3. Different Kinds of Inclusion
4. Different Aspects of Inclusion
5. Science: An Instrument for Materializing Inclusion
